Introduction

It is human nature to strive for survival. However, no matter how long we are able to live, the heat death of the universe will bring an end to the reign of humanity. Therefore, we propose to improve the livelihood of those who are currently among us. To achieve this, we propose to flip the entire Melissa High School Campus upside-down. In doing this, we will help to create a safer and more efficient learning environment for the next generation of our society.

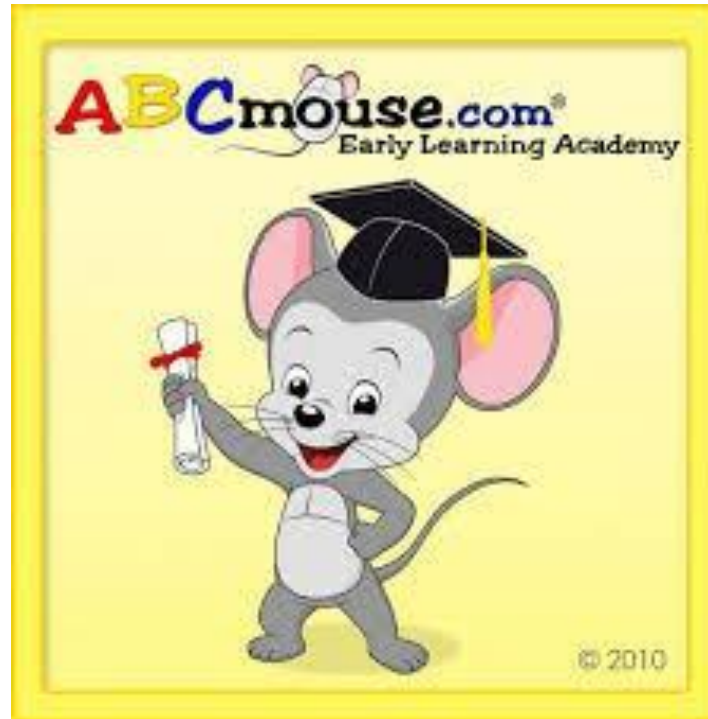

Such a project is not without risks however. In the opening phases of the project, digging out everything under the school will release the Underminers², a threat which we will work in the coming months to prepare for. However, despite these threats, the benefits of this project will be numerous and undisputed.

It is imperative that we continue our research in aerospace pornography if we

wish to defeat the threat of multiple sclerosis. We ask the board to review this proposition extensively and prepare our children for the next generation of human existence and to help foster a companionship between humans and the brain slugs which are attempting to take over the leadership at the Raleigh Dunkin Donuts location.

Benefits

Usage of Harnesses and Scientific Gravitational Equipment

Of course this would be impossible unless of course you were a wizard. The only way this would be made possible is with the usage of harnesses and and/or the funding of elvish magical gravitational equipment. This ancient elvish art of manipulation of the gravitational pull is expensive yet effective. In order to power the gravitational pull vector machine, one must first sacrifice 12 virgins in the nearest volcano. The virgins must be blond-haired and above the age of 22 but under the age of 24. They must dive into the volcano. When all this is complete you must slit the wrist of the nearest red-head and then drip the blood into the machine in order to power it. These machines must be re-powered bi-weekly.

Contingency Plan

If a point is reached where all gravity has been harnessed, destabilizing the realm amidst the construction of the initiative project, it is imperative that all crew members act quickly! Adhere to these quick guidelines:

- Stop
- Drop
- Latch on to yourself by your codpiece and prepare for your impending doom

Rules for Construction

To ensure safety among all people involved in the construction needed for this we have included some basic rules.

- The methods of construction will be carried out using the finest models of elvish power tools enchanted under the power of Donald B. Nutt. Each Quantum fezmir alphadriverr will be kissed 68 times by lime green pygmy goats. All goats who elect not to participate in the kissing process will be forced to watch 13,000 “My Name Jeff” compilations consecutively.
- Any construction workers caught ball fondling will immediately be castrated and banished to the Mushroom Kingdom, where they will subject to the evil reign of King Koopa(pictured right).
- All construction projects must be made with Minecraft blocks
- Workers participating in frequent smoking practices will deposit all cigarettes in designated bins located sporadically on the construction sight. Each cigarette will be automatically exchanged for exactly one of the item shown below:

New School Rules

Because of this desire to flip the entire campus of Melissa High School upside down, a drastic change, you can only assume we have some simple changes to our school policy.

- All students must pretend that if they go outside, they will be subjected to the harsh environment of the dwarf planet Pluto.
- All parents must allow their children to enter and move around in between planes of existence for extended periods of time.
- Loss of boots will be punished by autofellatio.
- All Students will vote D-man Trump for reelection in 2020
- ABSOLUTELY NO GIRLS ALLOWED
- Boss Baby WILL fuck your girl
- Exhaustion of precious rare earth minerals will cause the United States Navy to land large pygmy marmosets on our aorta, thus, all students must have a small supply of various rare earth minerals ready to deposit in the coffers at all times.
- ABSOLUTELY NO EATING UTENSILS ALLOWED
- ALL STUDENTS MUST BE PREPARED TO INITIATE PROCEDURE “ALBATROSS OMEGA - SIXTY NINE” AT ANY GIVEN TIME
- The only meal served will be astronaut ice cream, as there is no gravity in this new high school.
 - If you somehow procure normal food, your stomach will be removed and fed to Luis Jiménez.
- Instead of children being released to their homes at 4:02, they will instead be released to church, where they can learn about the “Eighth Dynamic.” After learning about the “Eighth Dynamic,” The students will be sent to the mushroom biome, where they can milk the cows for m0ushroom soup to feed their families each night.
- Failure to comply with the above request will result in the guilty student being forced to eat clay. The procedure guidelines and steps can be found in the index of this proposal.
- Failure to grasp Davis Hernandez’s pocket will result in death
- Nathan Serna must have his toes pulled at all times.
- The only form of communication allowed is tickles, specifically in the nether regions.
- NO STUDENTS INSIDE THE SCHOOL
- Students will be stored in ODST drop pods outside of the school campus.
- Students caught cheating will be put into Chia Pet pots.

- PDA will be punished with public crucifixion.
- Sick students will be relocated to under the dinosaur at Zadow Park
- If students are caught in the act of masturbation, they will be complimented on their technique and prayed for.
- Ejaculating uncontrollably will not be permitted during school hours.
- Sex is encouraged as long as the students are the same sex. We must be liberally correct.
- Sex with the opposite is not encouraged, but allowed only if the w*man is physically abusing the man and the man is dressed up as a neo-nazi. The man must also have another w*man involved dressed up as Hitler and wearing a strap-on forcing the man to perform fellatio on the w*man wearing a strap-on while saying Heil Hitler after every time the man gags. If no gag happens then the w*man with the strap-on shall proceed to have sex with the man's anal cavity.
- There is only one haircut allowed and it is pictured below.

- Caucasian students will have to wear a blindfold while learning.
- Harnesses must be worn at all times
- Students must only eat babybel cheese and must only eat biweekly. We need to preserve our produce here at MISD.
- Homosexual students will not be able to enroll in this school, however, if the students are straight but want to touch each other's genitals, then that is fine. (it's not gay to suck a dick out of respect)
- If you enroll in the school and are found to be a homosexual, you will be terminated by being forced to read 12 hours of jar jar binks fan fiction.
- African American students will have "learning ropes", which they will have to wrap around their neck so they can be better prepared for the outside world.

New School Furniture

Being an upstanding campus looking to make progress towards the future of aerospace pornography, the choice of furniture is as follows:

- Children will sit only upon large black dildos to prep for the large ass fucking known as life. We want our students to excel outside of these school walls.
- Desks will be made from obsidian to keep the students from destroying them or, writing racial slurs upon the desk surfaces.
 - **NO DIAMOND PICKAXES!!**
- This campus will abandon the use of whiteboards and will switch to interracial boards to be more PC.
- All toilets will not have auto flush capabilities because they honestly do more harm than good.
- Paper towel dispensers will be reinstalled in all bathrooms (with the exception of female bathrooms) due to the displeasure of hand dryers
- Every classroom will have a Skyrim dragon language word wall of power installed to allow students a chance to further expand their draconic lexicon and settle petty disputes in a more constructive manner
- Mirrors will have multiple suction cup dildos in varying heights and sizes, so that all students can have a chance to hone their skills.
- The floor will be synthesized in Russian labs to identically resemble the texture of pig intestines. Students will be required to walk on barefoot throughout the school day. Failure to comply will result in the student's immediate demise.

IT SHOULD BE NOTED THAT THE CURRENCY USED TO PURCHASE THE ABOVE FURNISHINGS WILL BE ACQUIRED FROM THE BUDGET FOR INFRASTRUCTURE IMPROVAL, NAMELY, THE BUDGET FOR THE WI-FI

Potential Threats

Our memes are in constant threat from being snatched using methods not unlike those employed in the “Bite of 87” Therefore, we believe the completion of this project is imperative, however, we understand that some board members may possess reservations due to the risks involved with a complete inversion of magnetic poles within a confined area. The following is a list of threats that this project may incur, as well as a solution to the following list of issues.

- Yoga Pants
- T.P.W
- The Unintentional Viewing of a W*man’s Sh**lder or *nkle
- Cape Cod
- Skullcandy Hesh 2 Wireless Headphones
- Guantanamo Bay
- Any of the 1 through 5 night cycles spent in the vicinity of Freddy Fazbear
- Metal Dans
- Chernobyl

Vending Machines

Vending Machines will be found in every nook and cranny this school has available. They will only contain the following things:

- Apple Juice
- Condoms³
- Instruction guides outlining the assembly of toy cars

There are few guidelines in this section that must be noted by staff and students as important. They are as follows:

- Charles and Chase Nelson get everything for free

Any other guidelines are irrelevant.

Prices for the vending machine are to be set at x50 market value Which equates to:

x 50 = \$166 per 10 Oz. Juice

Shop for Trojan condoms

Trojan Sensitivity
Ultra Thin ...
\$920.58
ATC Medical
Free shipping

x 50 = \$46,029 per condom

Gravity Rules

There will be bottom line NO GRAVITY ALLOWED IN THE SCHOOL. Here at MISD, we believe that gravity is a privilege and our students need to be thankful for what they have and not take gravity for granted. Thus, students will be issued suction-cup nipples in order to stabilize mobility.

- In the event that two students collide and are attached to one another by their nipple cups, they will be hazed and addressed as “heckin’ gay” until graduation.
- Any students attempting to join the mile high club will be maced.

Administration Hierarchy

- Highest in command:

Theological Degrees

(because religion leads to so many great things)

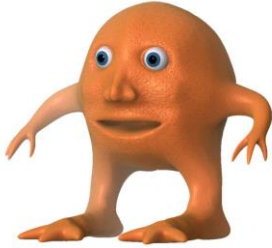

- ALL followers are required to purchase these readily available tomes of former President Barack Obama's (BlackLivesMatter™) teachings

- We will also be embodying the teachings of Buddhism, as they wore swastikas before it was even cool
- It is your civic duty to make at least 3 elephants ejaculate daily
- Devotees must add the entire Pink Season album to ALL playlists (yes, this includes your masturbation playlist)
- !OPTIONAL!: Go 3 weeks without subtitles in your anime for extra street cred. Your waifu might come to life. Not insisting, but I'm just sayin.
- Thy Faithful must communicate in using Matoran language from Bionicle
- Ok thats enough anime jokes, they might actually inquire if I really watch anime I CAN NEVER LET THEM FIND OUT
- Whenever greeting another follower, you must greet them with a "Hello there!" like Obi Wan did in Revenge of the Sith.
